Although Key Harbour Marina is not a broker of used boats, we do, from time to time, list boats and other marine related supplies as a service to our customers and dock members.

All transactions are strictly between the buyer and seller. While Key Harbour Marina assumes no responsibility for the purchase of any boat, we will assist in helping you find the right boat. A number of the boats listed have been repaired and maintained by Key Harbour personnel, in which case, we can offer an honest and unbiased evaluation of the overall condition and seaworthiness of the boat. ***Protect your investment – obtain a Watercraft Survey.***
